| Html5 | React | Clean Code |
| Css3 | JQuerry | Responsive Template |
| Tailwind Css | Git | W3C validated |
| Javascript | Git Lens | |

## WORK EXPERIENCE

**Devminified Pvt Ltd**                                                                 **Gujranwala, Punjab**

*Frontend Developer & Designer*                                              *Nov 2022 - Apr 2025*

- Developed and maintained high-performance, user-centric web applications using React.js, resulting in an increase in user engagement.
- Optimized frontend performance and SEO by implementing server-side rendering, resulting in improved user experience and increased organic engagement.
- Built reusable UI components using Html5, Css3, Tailwind Css, and Javascript, ensuring consistency and maintainability across the application, reducing development time.
- Proactively refactored existing codebases written in Typescript, JQuery, and managed with Git, to improve performance, readability, and maintainability.

## PROJECT EXPERIENCE

**JSDT Frontend**                                                               [https://jsdt-frontend.vercel.app/](https://jsdt-frontend.vercel.app/)

*Frontend & Designer*                                                              *Nov 2023 - Jan 2025*

- Designed modern, responsive, and user-friendly interfaces using Tailwind CSS, ensuring clean and consistent UI across the application.
- Focused on frontend designing, converting Figma and custom design files into high-quality React components.
- Created reusable React components to speed up development, reduce redundancy, and ensure code scalability.
- Implemented efficient UI structures with attention to usability, accessibility, and performance optimization in React.

**Sourcefy**                                                                             [https://app.sourcefy.co/](https://app.sourcefy.co/)

*Frontend & Designer*                                                              *Nov 2023 - Aug 2024*

- Developed a modern, responsive, and user-friendly interface for Sourcefy using Tailwind CSS and custom CSS, ensuring a consistent and visually appealing UI across all screen sizes.
- Led the frontend designing, converting Figma designs and creative concepts into fully functional, visually accurate React components.
- Created a set of reusable React components to boost development efficiency, reduce repetition, and maintain a scalable design system.

- Ensured a seamless user experience by focusing on usability, accessibility, and performance optimization in all interface elements.

## EDUCATION

**VIRTUAL UNIVERSITRY**
*BS COMPUTER SCIENCE*

**Gujranwala, Punjab**
*AUG 2019 – AUG 2023*
