PROFILE

Passionate and adaptable Frontend Developer & Designer with 2+ years of experience and a strong foundation in Computer Science. Skilled in crafting 100+ responsive, user-friendly websites and solving complex problems with clean, efficient code. Eager to contribute to dynamic teams, meet tight deadlines, and deliver pixel-perfect designs that enhance user experience. Committed to continuous learning and innovation for impactful, high-quality solutions.

TECHNICAL SKILLS

Html5	React	Clean Code
Css3	JQuery	Responsive Template
Tailwind Css	Git	W3C validated
Javascript	Typescript	Webflow

WORK EXPERIENCE

Devminified Pvt Ltd

Frontend Developer & Designer

Gujranwala, Punjab

Nov 2022 - Apr 2025

- Developed and maintained high-performance, user-centric web applications using React.js, integrating RESTful APIs to fetch and manage dynamic data, resulting in increased user engagement.
- Optimized frontend performance and SEO by implementing server-side rendering (SSR) and efficient data-loading strategies, improving page load times and organic traffic.
- Built reusable and scalable UI components using HTML5, CSS3, Tailwind CSS, and JavaScript, ensuring design consistency, maintainability, and reduced development time.
- Integrated third-party and backend APIs using Axios / Fetch, handling authentication, error states, loading states, and API response normalization.
- Managed application state using React Hooks and Context API, ensuring smooth data flow and predictable UI behavior.
- Proactively refactored existing codebases written in TypeScript and jQuery, following best practices to enhance performance, readability, and long-term maintainability.
- Collaborated using Git (GitHub/GitLab) for version control, code reviews, and feature-based branching workflows.

PROJECT EXPERIENCE

JSDT Frontend

Frontend & Designer

<https://jsdt-frontend.vercel.app/>

Nov 2023 - Jan 2025

- Designed modern, responsive, and user-friendly interfaces using Tailwind CSS, ensuring clean and consistent UI across the application.
- Focused on frontend designing, converting Figma and custom design files into high-quality React components.
- Created reusable React components to speed up development, reduce redundancy, and ensure code scalability.
- Implemented efficient UI structures with attention to usability, accessibility, and performance optimization in React.

Sourcefy

Frontend & Designer

<https://app.sourcefy.co/>

Nov 2023 - Aug 2024

- Developed a modern, responsive, and user-friendly interface for Sourcefy using Tailwind CSS and custom CSS, ensuring a consistent and visually appealing UI across all screen sizes.

- Led the frontend designing, converting Figma designs and creative concepts into fully functional, visually accurate React components.
- Created a set of reusable React components to boost development efficiency, reduce repetition, and maintain a scalable design system.
- Ensured a seamless user experience by focusing on usability, accessibility, and performance optimization in all interface elements.

Chronly

Frontend & Designer

<https://chronly.ai/>

Dec 2022 - Sep 2024

- Designed and developed modern, responsive, and visually consistent user interfaces for Chronly.ai using React and Tailwind CSS.
- Converted Figma designs and product requirements into pixel-perfect, high-quality frontend components.
- Built reusable and scalable React components to improve development speed and maintain clean code architecture.
- Focused on frontend UI/UX design, ensuring smooth user flows, intuitive layouts, and an engaging user experience.
- Implemented responsive layouts optimized for desktop and mobile devices.
- Ensured performance optimization and best frontend practices for fast loading and smooth interactions.
- Collaborated with the product team to refine UI details and enhance overall usability.
